ANNEXES

ANNEX I:	Outline of information content required for project proposals	19
ANNEX II:	SIA report writing format	20
ANNEX III:	Flowchart showing typical SIA key steps	22
ANNEX IV:	A typical sample of stakeholders communication plan	23
ANNEX V:	A Flow Chart for Processing Grievances	24
ANNEX VI:	A typical format for conducting census	25
ANNEX VII:	Social impacts and risks	27
ANNEX VIII:	Typical format for determining impact significance	28
ANNEX IX:	A typical social impact analysis matrix for proposed project(s)	31
ANNEX X:	A typical social management programme	32
ANNEX XI:	A typical social monitoring programme	33
ANNEX XII:	A typical format of cost estimate for management measures	34
	Glossary of terms	35

FOREWORD

In furtherance of its mandate, the Federal Ministry of Environmental (FMEnv), as the leading Ministry for the overall protection of the Environment and Conservation of Natural Resources as contained in the Environmental Impact Assessment (EIA) Act of 2017, has developed the present set of guidelines on various sectors of the economy. This is to ensure the environmental sustainability of these sectors through compliance with section (5) , subsection (2) of section (20) and section (66) of the EIA Act of 2017 which makes the social impact sector of the EIA mandatory for all new major projects.

In order to achieve sustainable development, the significance of Social Impact Assessment (SIA) for projects, processes or activities cannot be overemphasized. These guidelines have been developed to assist project proponents in conducting detailed environmental assessment of project with emphasis on the significance associated with and potential impacts of such projects. Procedure of minimizing, eliminating or alleviating any adverse impact as well as plans for future monitoring programmes is also included for guidance.

The guidelines if properly followed shall assist the project proponent(s) in conforming with the requirements of EIA Acts of 2017, and to obtain certification from the Federal Government of Nigeria through the FMEnv.

The existence of these guidelines does not in any way preclude the project proponents from complying with other applicable laws and regulations and laws. The agency reserves the right to modify or replace these guidelines in whole or in part as deemed fit in the circumstances without notice.
